CIO OF INNOVATE E-COMMERCE INC. DOUG PROM TEACHES BUSINESS COURSE AT COLORADO STATE UNIVERSITY

Pittsburgh— Doug Prom, the recently named CIO of Pittsburgh-based Innovate E-Commerce Inc., was asked to teach an Information Systems business class for the Monford School of Business at Colorado State University for the Fall semester of 2008. The class, BAS300 Information Systems, is geared towards Juniors and above and covers the full spectrum of IS topics including strategic decision making, ethics & information security, IT architectures, databases and data warehouses, networks, operations management, CRM and BI, and an overview of ERP systems. Doug Prom's wealth of experience with these criterions allows him to apply his own life work to the course, which aids the students in understanding how these aspects of business truly function and affect the economic and business world.

About Innovate E-Commerce Inc.

Founded in 1997, Innovate E-Commerce is a business-to-business e-commerce consulting firm whose forte is building the Extended Electronic Enterprise. The Extended Electronic Enterprise enables the moving, sharing, tracking and securing of critical structured business information in an electronic format between customers and the members of their extended value chain.

Innovate's technology solutions include software products, consulting services and an ASP (Application Service Provider) that help customers to align and transform their business processes.

The company's two founders, William Claire and Karen Puchalsky, are e-commerce pioneers with decades of experience from companies leading the technology revolution including Hewlett-Packard, Digital Equipment and Sterling Commerce.

In addition to its Pittsburgh headquarters, Innovate has offices in Columbus and Raleigh.
